We note your response to comment number 6. Please explain to us how you have applied the guidance in ASC 805-40-30-2 and the reason your valuation includes total market capitalization of Proteon rather than the equity interests the legal subsidiary (ArTara) would have to issue to give the owners of the legal parent (Proteon) the same percentage equity interest in the combined entity that results from the reverse acquisition. Also, please refer to the examples in ASC 805-40-55-2.

2. We note from your response to comment number 7 that you are not able to value any specific intangible assets at this time and that you intend to prepare a valuation to determine the value of any tangible and/or intangible assets acquired in the merger and will finalize these amounts prior to the closing of the merger. Please explain to us why you have not provided your best estimate of the fair value of the assets and liabilities acquired, including any intangible assets separately from goodwill. Refer to ASC 805-20-25-1.
